

Educational Institution Data

Requirements

1.How many total students leads did the institution receive?

```
select count(distinct Student_ID) as Total_Leads  
from education_insti;
```

	Total_Leads
▶	5000

2.How many students were enrolled?

```
select count(Student_ID) Total_Enrollments from education_insti  
where Initial_Status="Enrolled" or Later_Enrolled="Yes";
```

	Total_Enrollments
▶	1122

3.What is the overall Conversion rate?

```
select  
    round(  
        count(distinct case when status="Enrolled" then Student_ID end)  
        *100.0/count(distinct Student_ID),2 )as Conversion_Rate from education_insti ;
```

	Conversion_Rate
▶	22.44

4.Which course receive the most Leads?

```
select count(distinct Student_ID) Total_Leads,Course from education_insti  
group by Course  
order by Total_Leads desc  
limit 1
```

	Total_Leads	Course
▶	902	Data Analytics

5.Which course have the highest and lowest conversion Rate?

select

```
round(
    count(distinct case when status="Enrolled" then Student_ID end)
    *100.0/count(distinct Student_ID),
    2
)as Conversion_Rate ,Course from education_insti
group by Course
order by Conversion_Rate desc
limit 1;
```

	Conversion_Rate	Course
▶	24.78	Cloud Computing

select

```
round(
    count(distinct case when status="Enrolled" then Student_ID end)
    *100.0/count(distinct Student_ID),
    2
)as Conversion_Rate ,Course from education_insti
group by Course
order by Conversion_Rate asc
limit 1;
```

	Conversion_Rate	Course
▶	20.74	Digital Marketing

6.How much Revenue generated?

```
select concat(round(sum(Revenue)/1000000),"M") Total_Revenue from education_insti;
```

	Total_Revenue
▶	35M

7.Which lead sources generates most leads?

```
select count(distinct Student_ID) Total_Leads,Lead_Source from education_insti  
  
group by Lead_Source  
  
order by Total_Leads desc  
  
limit 1
```

	Total_Leads	Lead_Source
▶	908	Instagram

8.Which lead source have the highest conversion rate?

```
select  
  
    round(  
  
        count(distinct case when status="Enrolled" then Student_ID end)  
        *100.0/count(distinct Student_ID),  
  
        2  
    )as Conversion_Rate ,Lead_Source from education_insti  
  
group by Lead_Source  
  
order by Conversion_Rate desc  
  
limit 1;
```

	Conversion_Rate	Lead_Source
▶	27.70	Walk-in

9.How many students initially said “not interested” and later “re-engaged”?

```
select count(distinct Student_ID) Total_Reengagement from education_insti
where Initial_Status="Not Interested" and Reengaged="Yes";
```

Total_Reengagement
226

10.Which counsellor have the best conversion rate?

```
select
    round(
        count(distinct case when status="Enrolled" then Student_ID end)
        *100.0/count(distinct Student_ID),
        2
    )as Conversion_Rate ,Counsellor from education_insti
group by Counsellor
order by Conversion_Rate desc
limit 1;
```

Conversion_Rate	Counsellor
26.05	Meera

11.How many re-engaged students eventually enrolled?

```
select count(distinct Student_ID) Reengaged_and_enrolled from education_insti
where Reengaged="yes" and Later_Enrolled="yes"
```

Reengaged_and_enrolled
138

12.Which location generating most enrollments?

```
select count(distinct Student_ID) Total_Enrollments,Location from education_insti
where Initial_Status="Enrolled" or Later_Enrolled="Yes"
group by Location
order by Total_Enrollments desc
limit 1
```

Total_Enrollments	Location
156	Remote

13.What is the monthly trends of leads and enrollments?

SELECT

**DATE_FORMAT(
STR_TO_DATE(Lead_Date, '%m/%d/%Y %H:%i'),
'%Y-%m'
) AS Month,**

COUNT(DISTINCT Student_ID) AS Total_Leads,

**COUNT(DISTINCT CASE
WHEN Status = 'Enrolled' THEN Student_ID
END) AS Total_Enrollments**

FROM education_insti

WHERE Lead_Date IS NOT NULL

GROUP BY

**DATE_FORMAT(
STR_TO_DATE(Lead_Date, '%m/%d/%Y %H:%i'),
'%Y-%m'
)**

ORDER BY Month;

	Month	Total_Leads	Total_Enrollments
